

PRJ-01: Public Retirement System — Cloud Migration Discovery, IAM & Zero Trust Strategy

Midwestern public retirement system (pension) · 2023 – 2024

Client	Midwestern public retirement system (pension)
Period	2023 – 2024
Contract value	\$1,400,000
Meridian role	Prime contractor

Summary

Delivered a cloud migration discovery and transformation roadmap together with an Identity & Access Management strategy and a Zero Trust Network Access (ZTNA/SASE) strategy for a public pension system administering multiple defined-benefit and defined-contribution funds.

Scope Delivered

- Application assessment and cloud adoption / transformation plan.
- IAM strategy: identity governance, privileged access, MFA, lifecycle.
- Zero Trust / SASE reference architecture aligned to NIST 800-207.
- Compliance certification and mandatory respondent forms completed for the procurement.

Technologies

AWS, Microsoft Entra ID, Okta, NIST 800-53 / 800-207, SASE.

Outcomes

- Board-approved 3-year cloud and Zero Trust roadmap.
- Reduced standing privileged accounts by 70% in the target design.
